NORFOLK COUNTY WRANGLE.

NORFOLK COUNTY WRANGLE.

The center of interest in the Norfolk county political wrangle has again been transferred to Richmond, and the wrangle over the admission of Messrs. Owens and Parker, Fusion delegates from the county, into the Democratic caucus, has been succeeded by the more important question of their title to the sasts to which the returns show them to have been elected.

Messrs. Johnson and Etheridge, the candidates for the House on the Fusion ticket, are making a vigorous fight spainst the seating of Owens and Parker, and their adherents of the anti-Fusion element declare that when all the evidence is in, the Committee on Privileges and Elections cannot fail to make an adverse report on the seating of the delegates to whom the certificates of election were awarded on the face of the returns.

It is probable that a large delegation from both sides will be present in Richmand when the cases are heard before the committee. The Fusionists say that while there may be a minority report from the Elections Committee, they be lieve the majority report will favor their candidates, and that it will be adopted. They regard the practical seating of their men in the caucus as evidence on its face that the Legislature will not turn them out on account of the fraudulent practices charged by their Fusion opponents.

ley cannot but convince the members of the committee, if they are at all inclined to be fair, with the fact that frauds of the grossest character were perpetrated in Norfolk county in the most barefaced manner, and that the election was unfair and a farce throughout.

As has been stated, their principal complaint is on the score of irregularities, amounting to a violation of the election law, which they claim existed at Hall's Corner and other precincts and also to the lack of representation allowed the opponents of the Fusion party, members of which constituted the electoral board which made the appointments of the judges and clerks of election.

The fight before the committee will likely furnish the most startling evidence of the bitterness existing between the two parties in Norfolk county that has been drawn forth by any previous discussion of the matter. ### Wages Cut Ten Per Cent.

(Special to The Times-Dispatch.) (Special to The Times-Dispatch.)

If YNCHBURG, VA., Jin. 28.—The wages of the operatives of the Lynchburg Cotton Mill have been reduced ten per cent. This action on the part of the management, it is stated, was due to the high tyles of the raw material and the low price of the manufactured, which rendited it impossible for the mill to continue in operation under the existing schedule of wages. The ten per cent. reduction restores the wages to what they were about six months ago, when the management increased the schedule to that extent. Six hundred and fifty men, women and children are employed in the mill.

Don't Do It By Starving It Either-Let a Substitute Do The Work.
The old adage, "All work and no play makes Jack a dull boy." applies just as well to the stomach, one of the most important organs of the human system, as It does to the man, himself.

If your stemach is worn out and rebels against being further taxed beyond its limit, the only sensible thing you can do is to give it a rest. Employ a substitute for a short time and see if it will not more than repay you in results.

Stuart's Dyspapsia Tablets are a willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would, were it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and actually act just the same and do just the same work as the natural fluids would do, were the stomach well and sound. For Purifying and Beautifying the Skin, Scalp, Hair and Hands.

Socrates called beauty a short-lived tyranny, Plato a privilege of nature, Theocritus, a delightful prejudice, Theophrastus a silent chent, Carneades a solitary kingdom, Homer a giorious gift of nature, Ovid a favor of the gods. Aristotle affirmed that beauty was better than all the letters of recommendation in the world, and yet none of these distinguished authorities has left us even a hint of how beauty is to be perpetuated, or the ravages of

has left us even a hint of how beauty is to be perpetuated, or the ravages of age and disease defied. Time soon blends the lily and the rose into the pallor of age, disease dots the fair face with cutaneous disfigurations and crimsons the Roman nose with uneightly flushes, moth, if not rust, corrupts the glory of eyes, teeth, and lips yet beautiful by defacing the complexion, and fills the sensitive soul with agony. If such be the unhappy condition of one afflicted with slight skin blemishes, what must be the feelings of those in whom torturing humors have for years run riot, covering the skin with scales and sores and charging the blood with poisonous elements to become a part of the system until death? It is in the treatment of torturing disfiguring humors and affections of the skin, scrip and blood, with loss of hair, that the Cuticura remedies have achieved their greatest success. Original in composition, scientifically compounded, absolutely pure, unchangeable in any climate, always ready, and agreeable to the most delicate and sensitive, they present to young and old the most successful curatives of modern times.

Judge Walkins's opinion is concurred it nis tensw-committeeman. Colonel Lloyd T. Smith, of Heathville. Colonel Smith says:
"It will be exceedingly disparaging to the committee to admit those fellows."
Your attention is also called to this important fact. Norfolk county, by virtue of the new Constitution, has a Democratic majority of about two thousand, and should elect as Democrat to every office. By reason of fusion, out of the live county officers, three Republicans were returned as dected at the recent election. If Messrs Owens and Parkes, the Fusion candidates, are admitted not the Democratic caucus, fusionism, with all of its evils, will be endersed, and there will be inducement and precedent for the appointment of tusion, ejection beards, officers of election lind registrary who, with the large colored population of Norfolk county, will register hundreds of negroes, and thus permanently convertits Democratic county to a Republican stronghold, and nullify the franchise provisions of the new Constitution.

CAST IRON PIECE of your machine breaks you have a choice of three things:

Get a new pieco.
Patch it with plates and bolts.
BRAZE IT WITH

"FERROFIX" The first requires from 1 to 10 days.
The second is only temporary, as patch works loose.
The third is immediate, cheap and parmanent. Which do you prefer?
